WHY EPRESSPACK?

RESPONSIVE

5 days - that's all we need to create a classic version of a platform from beginning to end.

Our dedicated team of project managers, client services and designers are always available to help you reach your goals.

ADAPTABILITY

Your newsroom is tailor-made for you. This means that its design, architecture (languages, markets, ...) and content will be aligned with your brand identity.

Whilst behind the scenes, your back-office will be personalized according to the features you require.

Our solution also allows you to transfer your existing database to your new pressroom, so you don't lose any information. Enabling you to manage your archive in a much more practical way.

CREATIVITY

Our design team is on a mission to create your dream newsroom, all while taking into consideration your brand's guidelines and staying aligned with your brand look and feel.

EFFICIENCY

It is crucial for Communication departments to have a deeper and more articulated of the data they generate. Our software allows you to measure the results of your communication endeavors, optimize them, by personalizing your content according to your audience's expectations (media, journalists and influencers) and finally by detecting new trends and interests in just a few clicks!

SECURITY

Secure connections and encrypted information via Blockchain technology.

SIMPLICITY

Our technology is here to make your lives easier, this is why our software is designed to promote autonomy. We provide full training to allow your team to fully utilize ePressPack in no time.

EPRESSPACK WINS 4TH DIGITAL IMPACT AWARD IN 4 YEARS

"Our solution is here to transform and refine the way communications professionals create and nurture their brand reputation, enabling them to communicate with key stakeholders via multiple media to support their PR strategy.

Our goal is to empower communications teams to take control of their media activities, and our passion for innovation and technology is fuelled by the trust that brands have placed in us since 2011."
